THE STRONGEST AND BEST BLANK BOOK MADE.
OFFICIALLY ADOPTED BY THE UNITED STATES GOVERNMENT.

These books open FLAT clear to the center, so one can write to the center of each leaf on a FLAT surface, not on a rounded surface, as in an old style book. Those who once use this Patent Flat-Opening Blank Book will not use the old style again.

Thread will not break, as there is no strain, or if some stitches do, the leaves will not fall out

WARNING!
THE MILLER-MEGEE PATENT FOR FLAT-OPENING BOOKS SUSTAINED.

The suit brought in 1888 by the Miller-Megee Company, in the United States Circuit Court, at St. Louis, has been finally decided by a decree of said Court entered in favor of the Miller-Megee Company, and that the letters patent, No. 281,101, dated July 10, 1883, gives to them the first and exclusive right to make, use and sell the Patent Flat-Opening Book.

We have purchased the exclusive right to make, use and sell the Patent Flat-Opening book in the State of Indiana.

The deserved popularity of the Flat-Opening Blank Book, has caused several imitations to be put on the market. These are infringements on the Miller-Megee Patent, and we wish to warn all persons not to buy or use any book made with a guard or stub in the back, to which the leaves are sewed, unless said book is made under above patents. The user as well as manufacturer and seller of any infringing article, is liable to the patentee, and infringers will be prosecuted.

WM. B. BURFORD, Sole Licensee for State of Indiana.

No 17889P.

When another Book like this is wanted it is only necessary to send above Number.
